7 DISTINGUISHED ADVANTAGES

<p>OURS</p>	<p>OTHER</p>	<p>OURS</p>	<p>OTHER</p>
<p>No particles on the body: Very smooth surface without impurities</p>	<p>Particles on the body: Full of small particles and flying flocs, not beautiful overall.</p>	<p>Grinding mouth: Bright and glossy, good experience.</p>	<p>No grinding mouth: The surface is not smooth, poor drinking experience.</p>

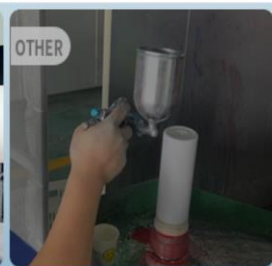

100% vacuum temperature measurement, vacuum rate up to 99.8%

No temperature measurement, the vacuum rate is only 70%

Closed automatic painting: isolate dust, flying flocs, etc., reducing the defect rate

Manual painting: particles, dirty spots and flying flocs will be produced

Strict quality inspection for painting: 100% full inspection with white gloves, not letting go of each fine particle

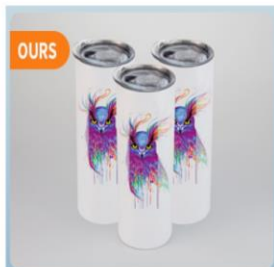

Bad quality inspection for painting: random inspection, 10% of missing inspection rate

Film coated white box: rain-proof and damp-proof, rigid and not easy to damage

Common white box: Too soft, easy to wrinkle and damp

No particles on the body: Very smooth surface without impurities

Particles on the body: Full of small particles and flying flocs, not beautiful overall.
